

Who is axon IT?

Technical support to suit your business needs

Founded in 2001, axon IT provides technical support, consultancy and training to businesses across the North of England.

As a Microsoft Gold Certified Partner, we work at the highest level of competence and expertise with Microsoft technologies meaning that whatever the size of your business, you can depend on us for an up-to-date, stable and secure infrastructure through which to run your day-to-day IT operations and business.

A range of services can be tailored to suit your business requirements including;

- Virtualisation
- Cloud Computing
- Disaster Recovery
- Telecoms
- Backup
- IT Support
- Remote Fault and Performance Monitoring
- Remote Working
- Hosted Anti Virus, Spyware and SPAM filtering solutions
- Security
- Hardware and Software Supply
- Web Hosting
- Technical Engineering Supply

With a focus on working directly with customers to fulfil their business needs, axon is fast becoming recognised as one of the leading network and IT support service providers in the North of England.

Our highly trained and experienced team can design a bespoke IT solution tailored to your requirements, enhancing business control and giving you an edge over the competition.

So, no more stress – one supplier covering the design, implementation, troubleshooting and support of all your IT services – available on a project or retained basis, axon IT is the comprehensive, flexible and affordable IT solution you've been looking for.
